

WHO WE ARE

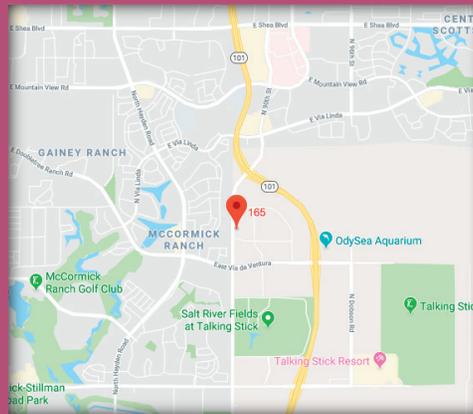

Physiatrists are the essential medical experts in integral evaluations, diagnosis, and management of neuromusculoskeletal and disabling conditions.

At Synergy, our approach is to find the best conservative and alternative treatment options to maximize your function and quality of life.

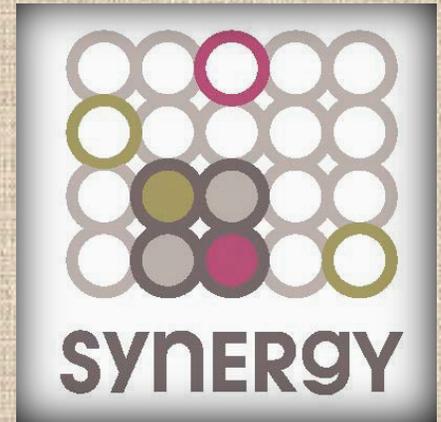

We aim to treat the whole person, taking into consideration the many factors that can contribute to your pain. By incorporating integrative solutions, we are able to accurately pinpoint problems and enhance performance without surgery.

MEET

DR. ANTHONY LEE

Dr. Lee is a board certified, fellowship trained Physical Medicine and Rehabilitation physician that specializes in non-operative treatments of musculoskeletal injuries. He holds board certifications in Physical Medicine and Rehabilitation as well as the subspecialty of Pain Medicine. His philosophy is simple – finding the best non-operative and personalized treatment plan for his patients to improve their quality of life and allowing them to “Live In Motion!”

Dr. Lee graduated with a Bachelor of Arts in Microbiology from Dartmouth College. After Dartmouth, he returned home to Georgia where he graduated with a Masters of Science degree in Microbiology from Georgia State University. He then received his Doctorate of Medicine from Mercer University School of Medicine. He completed his residency training in Physical Medicine and Rehabilitation at the Hospital of the University of Pennsylvania where he served as Chief Resident for two years. Dr. Lee relocated in 2004 to Arizona where he completed a Sports Medicine and Interventional Spine fellowship.

MEET

KYRA FARKAS, MSPAS, PA-C

Kyra is a board certified Physician Assistant and graduate of Thomas Jefferson University. She has a specific interest in physical medicine to help patients restore and improve their functional mobility due to her own passion for health and fitness. This passion began in high school while competing locally and nationally in track and weightlifting. She attended West Chester University where she received her Bachelor of Science degree in Kinesiology.

Early in her college career, Kyra discovered her love for empowering others to pursue maximal personal health and wellness. She decided to pursue a career in medicine to have a more direct impact on patients’ lives. Kyra completed her Master of Science degree in Physician Assistant Studies in 2018 and subsequently relocated to Scottsdale with her husband. Knowing every patient and their story is unique, Kyra believes in an individualized and holistic approach to treating patients, and ultimately improving their quality of life.
